

## **Laundering & Fabrics**

- **Strip All Beds:** Remove all sheets, pillowcases, and blankets. Place them directly into plastic bags before transporting them to the laundry.
- **High-Heat Wash:** Launder all bedding, clothing, and curtains in the hottest water allowable and dry on the highest heat setting for at least 30-40 minutes.
- **Seal Clean Items:** Once dry, place all clean items in new, unused plastic bags and tie them closed until treatment is complete.

## **Furniture & Clutter**

- **Clear All Floors:** Remove all items from under beds and on floors, including shoes, toys, and cardboard boxes.
- **Empty Closets & Drawers:** Completely empty all bedroom closets, dressers, and nightstands so the interiors can be treated.
- **Furniture Placement:** Move all furniture at least 2 feet away from the walls to provide access to baseboards.

## **Sanitation & Safety**

- **Thorough Vacuuming:** Vacuum all carpets, rugs, and upholstered furniture. Immediately discard the vacuum bag or canister contents in an outdoor trash bin.
- **Wall Hangings:** Remove all pictures, mirrors, and outlet covers from the walls so they can be inspected and treated.
- **Evacuation:** All people and pets (including fish and reptiles) must vacate the premises for at least 4 hours following treatment.
